

PRISON STRIPES
FOR MAGNATESCongressman Henry Drafts Bill
to Punish Trust Officials.

PENALTY TWO TO TEN YEARS

Measure Eliminates "Rule of Reason,"
Specifically Defines a Trust and Ex-
empts Labor and Farmers' Organi-
zations From Its Provisions—Author
Says Fines and Dissolutions Are
Child's Play for Offenders.Washington, Nov. 16.—"Felon's
stripes" as a punishment for "trust
criminals" in the United States to end
"commercial piracy under benevolent
rule of reason" are proposed in a
bill amending the Sherman anti-trust
law drafted by Representative Henry
of Texas to be introduced in the house
upon the opening of congress next
month. Its introduction probably will
mean its passage in the house.The bill specifically defines just
what constitutes a trust, legislates
from the present statute the "rule of
reason," as interpreted by the su-
preme court in the Standard Oil and
tobacco decisions, and provides as
punishment for violation of the law
imprisonment from two to ten years
in the penitentiary. It will be referred
to the judiciary committee.Representative Henry, who has
been conferring with Representative
Clayton of Alabama, chairman of the
committee, and other Democratic
leaders, completed the draft of the
proposed changes in the much discussed
statute. Representative Henry de-
clared that actual imprisonment of
great industrial offenders was essen-
tial to a cure for the trust evil and
that a law to be rigid must of neces-
sity define a trust to leave no room
for controversy.

Specifically Defines Trusts.

"My bill," said Mr. Henry, "nulli-
fies the alterations written into the
Sherman law by the unwarranted and
purely legislative decision of the su-
preme court in the Standard Oil and
tobacco trust cases last spring. That
is, the bill legislates the 'rule of re-
ason' out of the law and it defines
specifically what a trust is. It makes
the violation of this law a felony, with
imprisonment for not less than two
years nor more than ten years."Fines and dissolutions seem to be
child's play for the trust magnates.
Felon's stripes, where the violation is
knowingly or wilfully done, will prove
a potential remedy for these flagrant
acts of commercial outlaws. The Chi-
nese anti-trust law provided: 'Those
who interrupt commerce are to be be-
headed.' To behead such offenders in
our country would be entirely too ex-
treme, but to compromise with a pen-
itentiary sentence and a felon's stripes
as a punishment is mild and should be
administered."My bill justly exempts members of
organizations or associations not for
profit and without capital stock and
also agricultural products or live stock
in the hands of the producer or
raiser." The first exemption as to la-
bor was intended in the original legis-
lation and the second as to agricul-
tural products and live stock is found
in some state laws. These exemptions
are right and should be made."Democratic leaders will confer on
the bill as soon as the members as-
semble late this month and it is their
purpose to make the bill one of the
foremost on the legislative program
for the regular session.

COLD AFFECTS HIS THROAT

President Taft Makes Brief Address at
Frederick, Md.Frederick, Md., Nov. 16.—President
Taft came over into the Frederick val-
ley to advocate his arbitration treaties
in a speech before the associated
boards of trade of Maryland and to lay
a wreath at the tomb of Francis Scott
Key, author of "The Star Spangled
Banner."It was the biggest day this little
town has had since Barbara Freitchie
waved her flag at Stonewall Jackson's
men and drew a poem from the pen
of Whitlitt. Hundreds of twentieth
century Barbaras waved flags at the
president and drew notes of recogni-
tion from him.The president's address was sub-
stantially the same advocacy of the
treaties which he made in speeches on
the 15,000-mile trip just finished. He
had a bad cold which affected his
throat and he did not speak at length.

Safe Empty; Driver Beaten.

Chicago, Nov. 16.—Two armed men
forced a driver of a Wells Fargo Ex-
press company wagon to drive into a
dark alley and broke open a safe be-
longing to a railroad station. When
they found it empty they beat the
driver unconscious and escaped. The
driver and the wagon were found later
by a policeman.

DISQUALIFY SIX TALESMEN

Only One More Juror Secured in Mc-
Namara Case.Los Angeles, Cal., Nov. 16.—Six
talesmen were disqualified and one
was accepted in the McNamara mur-
der trial. With one more accepted
talesman in the box it will be filled for
the second time and counsel will ex-
ercise peremptory challenges.COMMERCE COURT

ate and House.

EXPECT PRESIDENT TO VETO

Tribunal's Decision in Intermountain
Rate Cases Fans Into Flame Smol-
dering Sentiment Against the Court
and Belief Grows That Enough Votes
May Be Secured to Pass Measure
Even if Taft Should Disapprove It.Washington, Nov. 16.—The demand
for the abolition of the commerce
court, which has been smoldering for
months and which burst into flame
with that tribunal's decision of the
intermountain rate cases, has assumed
serious proportions.The Democratic house is eager for
the chance to repeal the provision of
the law creating the court and devel-
opments indicate that a sufficient num-
ber of votes in the Republican senate
are available for the passage of the
repeal through that body.It is assumed that the president
would veto the repeal, so that the
abolition of the court could be accom-
plished only in the event that two-
thirds of each house should pass the
bill over the executive disapproval.It transpired that nearly all of the
Republican senators from the moun-
tain and some neighboring states are
ready to join the movement to wipe
out the court. The movement of a few
days ago, holding that the interstate
commerce commission exceeded its
authority in reducing the intermountain
long and short haul rates, has raised
a storm of protest throughout the
far West.The senators who are planning to
introduce the repeal of the court sec-
tion of the law have been making a
cavass of the situation. They have
telegrams and letters indicating that
fourteen regular Republican senators
from the far West are willing to vote
for the repeal.Representative Sims of Tennessee
will introduce the repeal in the house.
There is no doubt of its passage there,
where the court has even fewer friends
than in the last house, where a tie
vote was all that saved the provision
from being expunged from the bill.The progressives and the Democrats
and many of the regulars contend that
the court is a failure. Not only in the
intermountain but in a half a dozen
other cases the court has held up or-
ders of the commerce commission regu-
lating rates in favor of the shippers.President Taft and his friends un-
doubtedly will put up a stout defense
of the institution. The administration
takes the position that it is too early
to judge the efficacy of the new insti-
tution. Even if the commerce court
should be abolished the five judgeships
would remain, for the members
of the court were created circuit
judges for life. They would be as-
signed to work on various circuits.

MAY SEND TROOPS TO CHINA

State Department Plans to Keep
Treaty Obligations.Washington, Nov. 16.—The state de-
partment practically has decided to
send a regiment of troops from Man-
ila to Chinwangtao, a seaport in
China about 250 miles from Peking,
on the Gulf of Pechili. The purpose is
to perform an international duty under
the Boxer treaty in keeping open the
line of communication between Peking
and the sea.It was said at the state department
that request for troops had not been
made on the war department, but was
momentarily expected. The officials
were careful to make it appear that
the dispatch of these troops to China
would be absolutely without any po-
litical meaning and the movement was
not to be construed as intervention.

ORDERED TO SUPPORT WIDOW

Unique Penalty Imposed Upon Slayer
by Milwaukee Judge.Milwaukee, Nov. 16.—Judge August
Backus sentenced Emil Samenink, a
carpenter, to support the widow of the
man he killed. Samenink pleaded
guilty to manslaughter in connection
with the death of Albert Jute-
zinski during a row in a saloon over
a game of cards.The court said he felt that the ends
of justice demanded protection for the
victim of the prisoner's act as well as
punishment for the crime itself and
gave the prisoner a chance to redeem
himself.The prisoner was placed under the
care of a probation officer for two
years.

Founder of Scouts Coming.

Boston, Nov. 16.—General Sir Rob-
ert Baden-Powell, founder of the Boy
Scout movement, is to make a tour of
the United States this winter, during
which he will talk to Boy Scouts in
leading cities from Boston to San
Francisco.

IRON ORE RECORDS BROKEN

Minnesota Mine Leads All Others in
Output.Washington, Nov. 16.—The iron and
steel industry in the United States
broke all previous records in 1910, ac-
cording to Ernest F. Burchard of the
United States geological survey. The
iron ore production was 56,889,734 long
tons, the pig iron production 27,303,
567 tons and the steel production 25,
094,919 tons. These figures show in-
creases over the production in 1909 of
iron ore 5,734,297 tons, pig iron 1,508,
096 tons, steel 2,439,898 tons.The value of the iron ore produced
in 1910 was \$140,735,607, as against
\$109,964,903 for 1909, and that of pig
iron was \$425,115,235, as against \$419,
175,000 in 1909.During 1910 of the 451 iron ore
mines in operation 191 mines produced
over 50,000 long tons each, the largest
quantity being produced by a single
mine being 3,190,093 tons, by the Hull
Rust mine, of the Mesabi range, Min-
nesota.CHARGED WITH THEFT
OF COSTLY JEWELRYScion of Noble English Family
Arrested at Minneapolis.Minneapolis, Nov. 16.—Wilfred Stur-
dion Sheldon-Dickson, said to be the
scion of an English noble family,
whose social ambitions have carried
him into the homes of the best fam-
ilies of Minneapolis for the last nine
months, is locked up in the police sta-
tion charged with the theft of dia-
monds and jewelry valued at \$2,950
from Mrs. Olga von W. Haskell, well
known in St. Paul and Minneapolis
social circles.Arrested with him on suspicion of
knowing something of the disappearance
of the jewels is George Haskell,
son of Mrs. Haskell and of W. E. Has-
kell, now of Washington, D. C., for-
merly owner of the Boston Herald and
still earlier owner of the Minneapolis
Times and at one time with his father
of the Minneapolis Journal.Dickson strenuously denies knowl-
edge of the diamonds or jewelry. For
five weeks he has been the guest of
the Haskell family at their home and
remained there until a few days ago.
The jewels were missed ten days ago
and a quiet search instituted.

TO APPEAL RATE DECISION

Government Will Fight Enjoining of
Commission's Orders.Washington, Nov. 16.—The govern-
ment will appeal to the United States
supreme court from the decision of the
commerce court granting temporary
injunctions of the orders of the inter-
state commerce commission in the
transcontinental freight rate case.It is not the purpose of the govern-
ment's counsel to await final action
by the commerce court before taking
the appeal to the highest judicial tri-
bunal.Under the law an appeal may be
taken from a temporary injunction. It
is the desire of all parties in interest
to have a final determination of the
constitutionality of the long and short
haul provisions reached as soon as
practicable.

ETTA LARSON IS ACQUITTED

Jury in Northwood, Ia., Poisoning Case
Out Twenty Hours.Northwood, Ia., Nov. 16.—Mrs. Etta
Larson was acquitted of the charge of
having attempted to poison her father,
Douglas Rhodenbaugh, a wealthy
stockman and farmer, here. The jury
reported its verdict of not guilty after
having been out for twenty hours.Judge Clyde dismissed the cases
against Christian Larson, the woman's
husband, and Ella Mowers, a friend
who was implicated in the poisoning
charge by the indictment.

DEMOCRATS ESPECIALLY GLAD

Friends of Harmon and Champ Clark
Elated—Former Senator Dubois Tells
the Democrats What They Must Do to
Be Saved—What Might Have Happen-
ed in Maryland.

By ARTHUR W. DUNN.

Washington, Nov. 16.—[Special.]—
Politicians have had an opportunity to
digest and analyze the recent "off
year" elections, and their opinions, as
usual in such cases, are very much in-
fluenced by their party leanings. It
must be acknowledged, however, that
Republicans have failed to get many
crumbs of comfort out of the returns.There are some bright spots, it is
true, but the trouble is that one or two
particular spots are so dark that the
bright places are almost in eclipse. No
doubt the result in New York is quite
encouraging, as Republicans say, but
they know that local conditions rather
than national issues had much to do
with restoring the Republicans to power
in the assembly.

Massachusetts and Rhode Island.

Those two New England states are
scarcely regarded as an offset. Repub-
licans say they would have preferred
to have lost "little Rhode" rather than
the old Bay State. It must be ac-
knowledgeed that the result in Massa-
chusetts is rather discouraging to the
standpat element.Progressives assert that it means the
tariff must be revised, and the same
assertion is voiced by the Democrats.
"The people want lower duties; that is
what it means," was the assertion of a
western Democrat who has always
been a protectionist.

Democratic Presidential Stock.

It has been very difficult to say what
has been the effect upon various Demo-
cratic presidential prospects. But the
friends of both Governor Harmon and
Champ Clark show much elation and
point to the result in New Jersey as
distinctly adverse to Governor Wilson.
The Wilson men have a different
view, however, some of them asserting
that it was conservative Democrats
who helped to defeat Wilson men for
the legislature because they wanted
to injure the governor's chances for
promotion. It might be well to re-
member that Governor Foss is a quan-
tity that must be reckoned with after
winning two victories in Massachusetts.
He will have to be considered for
second place at least.

What Maryland Missed.

By one vote in the Democratic state
convention Maryland just missed hav-
ing a presidential candidate. Blair
Lee was defeated for the nomination
for governor by one majority, and it
is claimed that several delegates were
elected by fraudulent measures, thus
cheating him out of the nomination.
No doubt these charges helped to de-
feat Gorman.Blair Lee would have been elected
and at once he would have been placed
in the presidential class. Bryan
has already considered him, and only
a short time ago said that Blair Lee
was more than a possibility in the
next national convention.

"What Do You Want?"

Fred Dubois of Idaho has been in
the east and that means politics.
"What do you want?" is a question
he has been putting to leading Demo-
crats. "Do you really want to elect
a president?" is another query he has
been plumping at them. "The Demo-
crats have not wanted to elect a Demo-
crat since 1892," adds Dubois."You of the east did not want to
elect Bryan, and we of the west did
not want to elect Parker. Now, what
can we do? Are you going to insist
upon naming a man we can't get our
people to support? Is Bryan going to
be permitted to name a man you peo-
ple will not support? If you people
are in earnest, why don't you get to-
gether on Champ Clark, whom every-
body, east and west as well as the
south, can support and elect?"

Would Welcome Wu.

We all hope that the developments
in China will have the result of send-
ing Wu Ting Fang back to Washing-
ton as minister. He was a perpetual
joy and a surprise party. No one ever
knew what he was going to say next,
only one was sure that it would not
be a dull platitude.We have had many kinds of oriental
statesmen "in our midst," but none
like Wu. Washington became more
interested in the revolution when Wu's
name appeared in the reports.Wu was minister during the Boxer
troubles, and it was a strange fact
that, while no one else was able to get
information from the besieged minis-
ters in Peking, Wu often seemed to
have mysterious messages from some-
where giving assurances that the lega-
tions were safe.

Congressmen Dropping In.

Senators and representatives have
been coming to Washington during the
past few days, some of them only for
a short stay and others to remain un-
till the end of the next session. Most
of them will not come to the capital
until after Thanksgiving. The west-
ern men, as usual, are most numerous
at this time.

GOVERNOR DECLINES TO ACT

Henry C. Beattie, Jr., Must Die for
Killing His Wife.Richmond, Va., Nov. 16.—Henry
Clay Beattie, Jr., will die in the elec-
tric chair on Nov. 24 for the murder
of his young wife, Louise Owen Bea-
tie. The next to the last chapter in
the sensational murder case was en-
acted when Governor Mann refused to
interfere."I believe Beattie is guilty of the
cruel and malicious murder of his
young wife," said Governor Mann in
his decision, in which he dwelt upon
the fact that Judge Watson, in the
trial at Chesterfield, gave the prisoner
every advantage in all his rulings.Beattie's father told the prisoner in
the death cell of the penitentiary that
the governor had refused all aid.Young Beattie received it in silence,
but after a time his nerve gave way
and he was visibly affected at the loss
of his last hope.ACTION OF PACKERS
AFFECTS ALL CASESValidity of Sherman Anti-Trust
Law Is at Stake.Chicago, Nov. 16.—A further appre-
ciation of the importance of the ac-
tion taken by the indicted Chicago
meat packers in surrendering writs
of habeas corpus developed with a
further explanation of the plans of
their attorneys. The guilt or inno-
cence of the accused men has become
for the time being a matter of sec-
ondary importance, in spite of the im-
mense amount of work by the govern-
ment investigators.Instead, the question of the worth
of the law itself has come up for de-
cision and the immediate effect of
this decision on the meat business
likewise has moved back to make way
for a realization of what the action
means to all big business interests in
the United States.The recent dissolution of the Amer-
ican Tobacco company and the Stand-
ard Oil company; the suits begun
against the so called lumber trust in a
number of cities; the effort of the
government to dissolve that largest
of American corporations, the United
States Steel corporation; the adjust-
ment of the affairs of the interna-
tional Harvester company; the future
of the so called sugar trust; the re-
cently "discovered" business interests
in New York characterized as a
"money trust"—all these are now
found to hold a vital interest in the
fight of the packers.

Murdered.Oconomowoc, Wis., Nov. 16.—Mrs.
August Hoge, eighty-five years old,
was found dead in her bed at her
home west of this city and is supposed
to have been murdered. Since there
was a dent in her forehead and her
nose was broken and badly skinned,
although no blood was found on her
face, the authorities are led to believe
the crime was committed with some
blunt instrument, probably a hammer.The husband, eighty-nine years old,
is held on suspicion. He found the
body and notified the neighbors, who
called a physician. The coroner and
the sheriff are making an investiga-
tion.PRESIDENT HITS

Latter's Counsel Makes Charge
Against Wayman on Stand.Chicago, Nov. 16.—As soon as
Charles A. White's confession that he
accepted a bribe to vote for William
Lorimer as United States senator was
made known to him State's Attorney
Wayman of Cook county prepared to
interrogate all those involved by
White "on the ground that a witness'
first statements are the most eloquent
evidence against him if he is guilty."A short investigation, conducted in
April, 1910, prior to the publication of
the confession in the Chicago Tribune,
convinced Mr. Wayman that White's
statements were "amply corroborated."
Mr. Wayman so testified before the
senatorial committee investigating
Mr. Lorimer's election.Elbridge Haney, counsel for Mr.
Lorimer, asked Mr. Wayman about the
question of venue, or in what juris-
diction the prosecution against Lee
O'Neill Browne could be properly
brought."I want to show," said Mr. Haney,
"that the state's attorney was either
ignorant of the law or that he entered
into a conspiracy against Mr. Lorimer,
in fact, that there was a conspiracy to
put Mr. Lorimer out of politics."

approximate \$750,000.The fire started in the basement
and rapidly spread through the six-
story stone structure. Hagbert Ander-
son and George Wardlow, firemen,
were fatally injured by the falling of
plate glass.The home of the Weber club and
the Business Men's association of Og-

knowingly or willfully done, will prove
a potential remedy for these flagrant
acts of commercial outlaws. The Chi-
nese anti-trust law provided: 'Those
who interrupt commerce are to be be-
headed.' To behead such offenders in
our country would be entirely too ex-
treme, but to compromise with a pen-
itentiary sentence and a felon's stripes
as a punishment is mild and should be
administered."My bill justly exempts 'members of
organizations or associations not for
profit and without capital stock and
also agricultural products or live stock
in the hands of the producer or
raiser.' The first exemption as to la-
bor was intended in the original legis-
lation and the second as to agricul-
tural products and live stock is found
in some state laws. These exemptions
are right and should be made."Democratic leaders will confer on
the bill as soon as the members as-
semble late this month and it is their
purpose to make the bill one of the
foremost on the legislative program
for the regular session.

COLD AFFECTS HIS THROAT

President Taft Makes Brief Address at
Frederick, Md.Frederick, Md., Nov. 16.—President
Taft came over into the Frederick val-
ley to advocate his arbitration treat-
ies in a speech before the associated
boards of trade of Maryland and to lay
a wreath at the tomb of Francis Scott
Key, author of "The Star Spangled
Banner."It was the biggest day this little
town has had since Barbara Freitche
waved her flag at Stonewall Jackson's
men and drew a poem from the pen
of Whitier. Hundreds of twentieth
century Barbaras waved flags at the
president and drew nods of recogni-
tion from him.The president's address was sub-
stantially the same advocacy of the
treaties which he made in speeches on
the 15,000-mile trip just finished. He
had a bad cold which affected his
throat and he did not speak at length.

Safe Empty; Driver Beaten.

Chicago, Nov. 16.—Two armed men
forced a driver of a Wells Fargo Ex-
press company wagon to drive into a
dark alley and broke open a safe be-
ing hauled to a railroad station. When
they found it empty they beat the
driver unconscious and escaped. The
driver and the wagon were found later
by a policeman.

DISQUALIFY SIX TALES MEN

Namara Case.Los Angeles, Cal., Nov. 16.—Six
talesmen were disqualified and one
was accepted in the McNamara mur-
der trial. With one more accepted
talesman in the box it will be filled for
the second time and counsel will ex-
ercise peremptory challenges.COMMERCE COURT

EXPECT PRESIDENT TO VETO

Tribunal's Decision in Intermountain
Rate Cases Fans Into Flame Smol-
dering Sentiment Against the Court
and Belief Grows That Enough Votes
May Be Secured to Pass Measure
Even if Taft Should Disapprove It.Washington, Nov. 16.—The demand
for the abolition of the commerce
court, which has been smoldering for
months and which burst into flame
with that tribunal's decision of the
Intermountain rate cases, has assumed
serious proportions.The Democratic house is eager for
the chance to repeal the provision of
the law creating the court and devel-
opments indicate that a sufficient num-
ber of votes in the Republican senate
are available for the passage of the
repeal through that body.It is assumed that the president
would veto the repeal, so that the
abolition of the court could be accom-
plished only in the event that two-
thirds of each house should pass the
bill over the executive disapproval.It transpired that nearly all of the
Republican senators from the moun-
tain and some neighboring states are
ready to join the movement to wipe
out the court. The decision of a few
days ago, holding that the interstate
commerce commission exceeded its
authority in reducing the intermoun-
tain long and short haul rates, has
raised a storm of protest throughout
the Far West.The senators who are planning to
introduce the repeal of the court sec-
tion of the law have been making a
canvass of the situation. They have
telegrams and letters indicating that
fourteen regular Republican senators
from the Far West are willing to vote
for the repeal.Representative Sims of Tennessee
will introduce the repeal in the house.
There is no doubt of its passage there,
where the court has even fewer friends
than in the last house, where a tie
vote was all that saved the provision
from being expunged from the bill.The progressives and the Democrats
and many of the regulars contend that
the court is a failure. Not only in the
intermountain but in a half a dozen
other cases the court has held up or-
ders of the commerce commission reg-
ulating rates in favor of the shippers.President Taft and his friends un-
doubtedly will put up a stout defense
of the institution. The administration
takes the position that it is too early
to judge the efficacy of the new insti-
tution. Even if the commerce court
should be abolished the five judge-
ships would remain, for the members
of the court were created circuit
judges for life. They would be as-
signed to work on various circuits.

MAY SEND TROOPS TO CHINA

State Department Plans to Keep
Treaty Obligations.Washington, Nov. 16.—The state de-
partment practically has decided to
send a regiment of troops from Ma-
nila to Chinwangtao, a seaport in
China about 250 miles from Peking,
on the Gulf of Pechili. The purpose is
to perform an international duty un-
der the Boxer treaty in keeping open
the line of communication between
Peking and the sea.It was said at the state department
that request for troops had not been
made on the war department, but was
momentarily expected. The officials
were careful to make it appear that
the dispatch of these troops to China
would be absolutely without any po-
litical meaning and the movement was
not to be construed as intervention.

ORDERED TO SUPPORT WIDOW

Unique Penalty Imposed Upon Slayer
by Milwaukee Judge.Milwaukee, Nov. 16.—Judge August
Backus sentenced Emil Samenfinck, a
carpenter, to support the widow of the
man he killed. Samenfinck plead-
ed guilty to manslaughter in connec-
tion with the death of Albert Jute-
zinski during a row in a saloon over
a game of cards.The court said he felt that the ends
of justice demanded protection for the
victim of the prisoner's act as well as
punishment for the crime itself and
gave the prisoner a chance to redeem
himself.The prisoner was placed under the
care of a probation officer for two
years.

Boston, Nov. 16.—General Sir Rob-
ert Baden-Powell, founder of the Boy
Scout movement, is to make a tour of
the United States this winter, during
which he will talk to Boy Scouts in
leading cities from Boston to San
Francisco.

IRON ORE RECORDS BROKEN

Minnesota Mine Leads All Others in
Output.Washington, Nov. 16.—The iron and
steel industry in the United States
broke all previous records in 1910, ac-
cording to Ernest F. Burchard of the
United States geological survey. The
iron ore production was 56,889,734 long
tons, the pig iron production 27,303,
567 tons and the steel production 27,
094,919 tons. These figures show in-
creases over the production in 1909 of
iron ore 5,734,297 tons, pig iron 1,508,
096 tons, steel 2,433,898 tons.The value of the iron ore produced
in 1910 was \$140,735,607, as against
\$109,964,903 for 1909, and that of pig
iron was \$425,115,235, as against \$419,
175,000 in 1909.During 1910 of the 451 iron ore
mines in operation 191 mines produced
over 50,000 long tons each, the largest
quantity being produced by a single
mine being 3,190,093 tons, by the Hull
Rust mine, of the Mesabi range, Min-
nesota.CHARGED WITH THEFT
OF COSTLY JEWELRYScion of Noble English Family
Arrested at Minneapolis.Minneapolis, Nov. 16.—Wilfred St-
uart Sheldon-Dickason, said to be the
scion of an English noble family,
whose social ambitions have carried
him into the homes of the best fam-
ilies of Minneapolis for the last nine
months, is locked up in the police sta-
tion charged with the theft of dia-
monds and jewelry valued at \$2,950
from Mrs. Olga von W. Haskell, well
known in St. Paul and Minneapolis
society.Arrested with him on suspicion of
knowing something of the disappearance
of the jewels is George Haskell,
son of Mrs. Haskell and of W. E. Has-
kell, now of Washington, D. C., for-
merly owner of the Boston Herald and
still earlier owner of the Minneapolis
Times and at one time with his father
of the Minneapolis Journal.Dickason strenuously denies knowl-
edge of the diamonds or jewelry. For
five weeks he has been the guest of
the Haskell family at their home and
remained there until a few days ago.
The jewels were missed ten days ago
and a quiet search instituted.

TO APPEAL RATE DECISION

Government Will Fight Enjoining of
Commission's Orders.Washington, Nov. 16.—The govern-
ment will appeal to the United States
supreme court from the decision of the
commerce court granting temporary
injunctions of the orders of the inter-
state commerce commission in the
transcontinental freight rate case.It is not the purpose of the govern-
ment's counsel to await final action
by the commerce court before taking
the appeal to the highest judicial tri-
bunal.Under the law an appeal may be
taken from a temporary injunction. It
is the desire of all parties in interest
to have a final determination of the
constitutionality of the long and short
haul provisions reached as soon as
practicable.

ETTA LARSON IS ACQUITTED

Jury in Northwood, Ia., Poisoning Case
Out Twenty Hours.Northwood, Ia., Nov. 16.—Mrs. Etta
Larson was acquitted of the charge of
having attempted to poison her father,
Douglas Rhodenbaugh, a wealthy
stockman and farmer, here. The jury
reported its verdict of not guilty after
having been out for twenty hours.Judge Clyde dismissed the cases
against Christian Larson, the woman's
husband, and Ella Mowers, a friend
who was implicated in the poisoning
charge by the indictment.

DEMOCRATS ESPECIALLY GLAD

Friends of Harmon and Champ Clark
Elated—Former Senator Dubois Tells
the Democrats What They Must Do
to Be Saved—What Might Have Happ-
ened in Maryland.By ARTHUR W. DUNN.
Washington, Nov. 16.—[Special.]—
Politicians have had an opportunity to
digest and analyze the recent "off
year" elections, and their opinions, as
usual in such cases, are very much in-
fluenced by their party leanings. It
must be acknowledged, however, that
Republicans have failed to get many
crumbs of comfort out of the returns.There are some bright spots, it is
true, but the trouble is that one or two
particular spots are so dark that the
bright places are almost in eclipse. No
doubt the result in New York is quite
encouraging, as Republicans say, but
they know that local conditions rather
than national issues had much to do
with restoring the Republicans to pow-
er in the assembly.

Massachusetts and Rhode Island.

Those two New England states are
scarcely regarded as an offset. Repub-
licans say they would have preferred
to have lost "little Rhode" rather than
the old Bay State. It must be ac-
knowledgeed that the result in Massa-
chusetts is rather discouraging to the
standpat element.Progressives assert that it means the
tariff must be revised, and the same
assertion is voiced by the Democrats.
"The people want lower duties; that is
what it means," was the assertion of a
western Democrat who has always
been a protectionist.

Democratic Presidential Stock.

It has been very difficult to say what
has been the effect upon various Dem-
ocratic presidential prospects. But the
friends of both Governor Harmon and
Champ Clark show much elation and
point to the result in New Jersey as
distinctly adverse to Governor Wilson.
The Wilson men have a different
view, however, some of them asserting
that it was conservative Democrats
who helped to defeat Wilson men for
the legislature because they wanted
to injure the governor's chances for
promotion. It might be well to re-
member that Governor Foss is a quan-
tity that must be reckoned with after
winning two victories in Massachusetts.
He will have to be considered
for second place at least.

What Maryland Missed.

By one vote in the Democratic state
convention Maryland just missed hav-
ing a presidential candidate. Blair
Lee was defeated for the nomination
for governor by one majority, and it
is claimed that several delegates were
elected by fraudulent measures, thus
cheating him out of the nomination.
No doubt these charges helped to de-
feat Gorman.Blair Lee would have been elected
and at once he would have been plac-
ed in the presidential class. Bryan
has already considered him, and only
a short time ago said that Blair Lee
was more than a possibility in the
next national convention.

"What Do You Want?"

Fred Dubois of Idaho has been in
the east and that means politics.
"What do you want?" is a question he
has been putting to leading Democ-
rats. "Do you really want to elect
a president?" is another query he has
been plunging at them. "The Democ-
rats have not wanted to elect a Democ-
rat since 1892," adds Dubois.You of the east did not want to
elect Bryan, and we of the west did
not want to elect Parker. Now, what
can we do? Are you going to insist
upon naming a man we can't get our
people to support? Is Bryan going to
be permitted to name a man you peo-
ple will not support? If you people
are in earnest, why don't you get to-
gether on Champ Clark, whom every-
body, east and west as well as the
south, can support and elect?"

Would Welcome Wu.

We all hope that the developments
in China will have the result of send-
ing Wu Ting Fang back to Washing-
ton as minister. He was a perpetual
joy and a surprise party. No one ever
knew what he was going to say next,
only one was sure that it would not
be a dull platitude.We have had many kinds of oriental
statesmen "in our midst," but none
like Wu. Washington became more
interested in the revolution when Wu's
name appeared in the reports.Wu was minister during the Boxer
troubles, and it was a strange fact
that, while no one else was able to get
information from the besieged minis-
ters in Peking, Wu often seemed to
have mysterious messages from some-
where giving assurances that the lega-
tions were safe.

Congressmen Dropping In.

Senators and representatives have
been coming to Washington during the
past few days, some of them only for
a short stay and others to remain un-
till the end of the next session. Most
of them will not come to the capital
until after Thanksgiving. The west-
ern men, as usual, are most numerous
at this time.

GOVERNOR DECLINES TO ACT

Henry C. Beattie, Jr., Must Die for
Killing His Wife.Richmond, Va., Nov. 16.—Henry
Clay Beattie, Jr., will die in the elec-
tric chair on Nov. 24 for the murder
of his young wife, Louise Owen Bea-
tie. The next to the last chapter in
the sensational murder case was en-
acted when Governor Mann refused to
interfere."I believe Beattie is guilty of the
cruel and malicious murder of his
young wife," said Governor Mann in
his decision, in which he dwelt upon
the fact that Judge Watson, in the
trial at Chesterfield, gave the prisoner
every advantage in all his rulings.Beattie's father told the prisoner in
the death cell of the penitentiary that
the governor had refused all aid.Young Beattie received it in silence,
but after a time his nerve gave way
and he was visibly affected at the loss
of his last hope.ACTION OF PACKERS
AFFECTS ALL CASESValidity of Sherman Anti-Trust
Law Is at Stake.Chicago, Nov. 16.—A further appre-
ciation of the importance of the ac-
tion taken by the indicted Chicago
meat packers in surrendering them-
selves into custody and asking writs
of habeas corpus developed with a
further explanation of the plans of
their attorneys. The guilt or inno-
cence of the accused men has become
for the time being a matter of second-
ary importance, in spite of the im-
mense amount of work by the govern-
ment investigators.Instead, the question of the worth
of the law itself has come up for de-
cision and the immediate effect of
this decision on the meat business
likewise has moved back to make way
for a realization of what the action
means to all big business interests in
the United States.The recent dissolution of the Ameri-
can Tobacco company and the Stand-
ard Oil company; the suits begun
against the so called lumber trust in a
number of cities; the effort of the
government to dissolve that largest
of American corporations, the United
States Steel corporation; the adjust-
ment of the affairs of the Interna-
tional Harvester company; the future
of the so called sugar trust; the re-
cently "discovered" business interests
in money trust—all these are now
found to hold a vital interest in the
fight of the packers.

Kills Cat and Then Herself.

Winnipeg, Nov. 16.—A woman
named Calderwood, wife of a stone-
mason at Regina, Sask., committed
suicide by poisoning at her home. Be-
fore taking the poison herself the
woman killed a cat, evidently trying
the poison on the cat to see if it
would be effective.

HUSBAND HELD FOR CRIME

Aged Woman Believed to Have Been
Murdered.Oconomowoc, Wis., Nov. 16.—Mrs.
August Hoge, eighty-five years old,
was found dead in her bed at her
home west of this city and is supposed
to have been murdered. Since there
was a dent in her forehead and her
nose was broken and badly skinned,
although no blood was found on her
face, the authorities are led to believe
the crime was committed with some
blunt instrument, probably a hammer.
The husband, eighty-nine years old,
is held on suspicion. He found the
body and notified the neighbors, who
called a physician. The coroner and
the sheriff are making an investiga-
tion.PRESIDENT HITS

PLOTTED AGAINST LORIMER

Latter's Counsel Makes Charge
Against Wayman on Stand.Chicago, Nov. 16.—As soon as
Charles A. White's confession that he
accepted a bribe to vote for William
Lorimer as United States senator was
made known to him State's Attorney
Wayman of Cook county prepared to
interrogate all those involved by
White "on the ground that a witness'
first statements are the most eloquent
evidence against him if he is guilty."A short investigation, conducted in
April, 1910, prior to the publication of
the confession in the Chicago Tribune,
convinced Mr. Wayman that White's
statements were "amply corroborat-
ed." Mr. Wayman so testified before
the senatorial committee investigating
Mr. Lorimer's election.Elbridge Haney, counsel for Mr.
Lorimer, asked Mr. Wayman about
the question of venue, or in what ju-
risdiction the prosecution against Lee
O'Neill Browne could be properly
brought."I want to show," said Mr. Haney,
"that the state's attorney was either
ignorant of the law or that he entered
into a conspiracy against Mr. Lorimer.
In fact, that there was a conspiracy to
put Mr. Lorimer out of politics."

OGDEN MENACED BY FIRE

Two Firemen Fatally Injured and Loss
Reaches \$750,000.Ogden, Utah, Nov. 16.—The entire
business district of Ogden is threat-
ened by fire, which started in the Ec-
cles building. The loss thus far will
approximate \$750,000.The fire started in the basement
and rapidly spread through the six-
story stone structure. Hagbert Ander-
son and George Wardlow, firemen,
were fatally injured by the falling of
plate glass.The home of the Weber club and
the Business Men's association of Og-
den was completely destroyed. The
Commercial National bank's quarters
on the ground floor were also destroy-
ed, but the vault was saved.

"A Breach of Faith"

A drama in which two brothers love the same girl. Pictured in beautiful style midst wonderful scenery

"The Copperhead"

A great war story different from the usual kind. It is a story of the revolution showing many thrilling scenes in battle and a young northerner who takes charge of and drills an awkward squad—a truly laughable scene but with a heart rending exhibition of wonderful devotion.

"His New Dress Shirt"

A beautiful little comedy in which a young wife tries to launder her husband's dress shirt. She is not very well experienced in the laundry business but it all ends pleasantly.

"Steeple Jack"

A picture showing this dare devil thirty stories above the pavement, where one slight mismovement would mean certain death.

James Cullen's old horse, which has faithfully served him 22 years, was ordered chloroformed by him and Dr. C. A. Nelson performed the act which sent the animal to the horse heaven. He was 28 years old and one of the most docile animals in the city.

Elmer Halberg, the depot agent at McGregor, shot his first deer this week and the event has been so important in his life that it has made a marked change in his demeanor. The freight conductors and trainmen did not know what ailed Halberg until some one told them it was a deer.

A very pleasant birthday surprise party was given Mrs. Nick Lauer last evening at the Iron Exchange hotel, the social being arranged by her friends Mrs. Hanson and Miss Anna Winder. Many of her friends were present. A dainty luncheon was served and all spent a most enjoyable evening.

This is far time. We would like to have an opportunity to show you our line of furs for ladies and misses. Our furs are all guaranteed. We are selling this week a misses pillow muff for only \$1.00. This is just the muff for school wear. Come and get one while they last. B. Kaatz & Son. 1t

Dr. C. A. Nelson returned last evening from a trip to Grayling. While examining a horse there, the animal kicked him just above the right eye. The injury was a glancing blow which was not very serious. From a superficial diagnosis one would conclude that if the right hind leg of the quadruped represented the condition of his entire system that there was nothing very sick about the beast. At Deerwood Dr. Nelson examined a carload of horses belonging to the Bungardner camp.

Obituary

Mrs. Rebecca Bierhaus, the wife of Jacob Bierhaus, passed away Wednesday morning at her home three miles northwest of Brainerd. She had been suffering since summer the immediate cause of death being paralysis and congestion of the brain. The funeral will be held on Friday afternoon from the residence and at 1:30 from the First Presbyterian church, the Rev. W. J. Lowrie officiating. The deceased was a devoted member of the Presbyterian church. Interment will be in Evergreen cemetery.

She was born in Toledo, Ohio, Aug. 20, 1845. On January 10, 1867, she was married to Jacob Bierhaus in Newton, Wis., the family coming to Brainerd about the year 1897. Nine children were born of which six are still living, being Mrs. Henrietta Haeger, of Webster City Iowa; Henry W. Bierhaus, of Gibbon, Nebraska; Mrs. S. H. Bourquin, of Brainerd; Samuel J. Bierhaus, of Gibbon, Nebraska; Miss Esther Bierhaus and W. Fred Bierhaus, of Brainerd. The deceased leaves surviving her husband, two brothers and one sister, being Jacob Bierhaus, M. J. Kaiser, of Storm Lake, Iowa; Henry B. Kaiser, of Spokane, Wash; Mrs. W. M. Beyer, of Philadelphia, Pa.

FOLKS PAST FIFTY MUST USE CASCARETS

What Glasses are to Weak Eyes, Cascarets are to Weak Bowels—A 10-cent Box Will Truly Amaze You

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

A LITTLE DANDERINE WILL MAKE YOUR HAIR LUSTROUS, SOFT, FLUFFY, ABUNDANT

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

If you Wish to Double the Beauty of your Hair in Ten Minutes surely Try a Danderine Hair Cleanse

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits particularly those who have been careless, whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Try as you will, after one application of Danderine you cannot find any dandruff or a loose or falling hair, and your scalp will never itch, but what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair sprouting all over the scalp. Danderine makes the hair grow long, heavy and luxuriant and we can prove it. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

Four Drills Operated by Cole & McDonald are Exploring and Checking up Old Drilling

The greatest event of the week on the north range of the Cuyuna iron range is the advent of the Ogelby-Norton Co., of Cleveland, Ohio, as one of the active interest which will develop and work its properties.

This company, like the M. A. Hanna Co., also of Cleveland, Ohio, is what is termed an ore merchant. It explores for ore, mines and sells it. Backed by ample capital, guided by experienced men, the Ogelby-Norton Co. will be one of the factors in the further development of the range.

It has leased from the C. N. Hill Co. ore lands in section 10-46-29 lying west of the rich deposits recently uncovered by the Hill and Lamb interests. Four drills of the Cole & McDonald Co. have been set to work to explore the land and to check up the drilling previously done by B. Magoffin, Jr., of Deerwood.

George H. Crosby has added three more drills to his equipment on the north range.

Salisbury Adams, of Deerwood, has furnished valuable data about the Cuyuna iron range in volume LII, "The Geology of the Lake Superior Region," as recently published by

the United States Geological Survey. Two drills have recently been added to the territory in section 35-46-30, lying a mile northwest of Jonesville.

SUGGESTS NAMING IT OBERG SCHOOL

John H. Hill Asks Trustees of District No. 51 to so Name the School at Ironton

MR. HILL GIVES HIS REASONS

Charles J. Oberg Was the Pioneer Who Established First School, A Log Building

The following communication has been received by the Dispatch from John H. Hill, a member of the Ironton Township Co. and one of the founders of Ironton, which town with Crosby are parts of school district No. 51. Mr. Hill is prominently identified with the development of the Cuyuna range as an investor, explorer and mine owner. His home is at Duluth, but his time is equally divided between the range and the Zenith City. The letter suggesting the name for the school at Ironton states: To the trustees of School District No. 51, Crosby, Minn.

Gentlemen:— You are erecting at Crosby and at Ironton two magnificent school buildings which I beg leave to say are a credit to your efforts.

I am advised that it is your intentions to give the name "Crosby" to the school building located in the village of that name, and that name meets my most hearty approval, for it is the name of a family well known and highly esteemed, a name associated not only with the village of Crosby but with the entire Cuyuna range; for I feel if it had not been for the untiring energy, enterprise and large expenditures of money on the part of Mr. Geo. H. Crosby, the development of the Cuyuna range would have been delayed for years.

To my mind a school building should bear some name associated with the history of the locality in which it is located or with the history of the country, and surely no name could be more appropriate than that of Crosby for the splendid structure in the village bearing that name.

As to the school at Ironton, I am advised that it is your purpose to give it the name Ironton. Surely gentlemen, this is a mistake. The word Ironton means nothing, it is not the name of a family honored and esteemed, it is not a part of the history of the country and it is only an invention of a name.

I hope you will pardon me in suggesting a different name for the school building at Ironton. A name associated with the history of school district No. 51 since its very inception. In fact it is the name of the founder of that school district. The name of an honored and esteemed family now engaged in the business of the world, a name of a man who almost penniless, living in a small shanty on section 2 now within the village of Crosby, with a large growing family, who in the dead of winter, not having a horse to ride or drive, tramped through the then wilderness, to visit the few settlers of that region, to ask them to assist him in securing a school, where his children and theirs might receive an education. The name of a man who met with antagonism in his efforts from people who had no families, but who finally succeeded in his efforts in receiving the aid of the county commissioners in establishing in the little log building (still standing) on his homestead, the first school of district No. 51. The name of that man was Chas. J. Oberg.

To my mind this sentiment surely will appeal to you, and that the founder of school district No. 51 will be remembered at your hands by giving to the school building at Ironton his family name.

Yours very truly,

JOHN H. HILL.
Nov. 14th, 1911.

WELL KNOWN ENGINEER

Fred D. Stillings, Who Passed Away Wednesday Afternoon, Was 30 Years in Railway Service

Fred D. Stillings, who passed away Wednesday afternoon at a local hospital, was for 30 years a passenger engineer, being first employed by the Northern Pacific railway and then by the Minnesota & International railway.

He and St. Hallett ran the first engines on the M. & I. The deceased was a kind and good hearted man, well liked by his associates and railway officials. He was a good husband and father. Always pleasant with his associates, he will be missed by all of the train men. Many a time the boys on the road have said: "If we want to make time get Fred on the 22", that being the engine which he usually ran.

The deceased was born in 1857 in Gorham, New Hampshire, and came to Brainerd when he was about 19 years old. He was married in Minneapolis to Miss Mary Gates in 1881. To them a daughter was born, Mrs. J. F. Casey, who resides in Brainerd.

He was taken sick November 6, suffering with a paralytic stroke and was removed to the Northern Pacific sanatorium where everything possible was done to relieve his suffering. He was gentle and patient and his wife was devoted in her care for him. He firmly believed he would get better and seemed to be gaining in strength until yesterday when he weakened and passed away while in a peaceful slumber.

He was a member of the Bemidji lodge of Elks, the Brotherhood of Locomotive Engineers, Modern Samaritans, United Order of Foresters, Knights of Pythias and the Workmen.

The funeral will be held from the residence, 303 North Fifth street, at two o'clock and from the Methodist church at 2:30 on Saturday afternoon, November 18. The remains will lie in state at the home from Friday afternoon until Saturday the time of the funeral.

Brainerd Musical Club

The concert given last evening in the Elks hall was a most pronounced success and the members of the musical club may feel justly proud of their efforts in securing talent of so high a standard. In this so-called prosaic, mercenary age, music is most imperative and we each and every one agree with the author in his denunciation that "The man that hath no music in himself nor is not moved with concord of sweet sounds, is fit for treasons, stratagems and spoils."

Mesdames John Millen and John A. Stephenson met the expectations of their audience in their duo piano numbers and were frequently recalled to acknowledge applause. In their closing number was afforded the best opportunity of portraying their true artistic temperaments and they responded to the call.

Miss Mary Bradshaw is the possessor of a God-given personality which coupled with a beautiful soprano voice prompted the thought, that the sound—

"Of music that is born of human breath Comes straighter to the soul than any strain"

The hand above can make."

Miss Bradshaw's descriptive introduction of her numbers added considerably to their reception and it was especially pleasing to learn that American composers were so rapidly forging to the front, that a program recently given in Berlin was made up entirely of the classics of our fellow country men.

Miss Carlotta Simonds proved a most valuable acquisition to this well known group of Duluth artists and in her accompaniments through the entire evening was in perfect sympathy with the soloist. Altogether the evening was a most enjoyable one and it was most gratifying to have the performers comment so favorably on the acoustics of the hall comparing it most favorably with the Elks hall in St. Paul.

Hyde-Miller

Last evening at the home of Mr. and Mrs. Wm. F. Holst, 421 4th St., north, occurred the marriage of Miss Adah M. Miller of this city, and Mr. J. Edwin Hyde, of Minneapolis.

The marriage service with Rev. G. P. Sheridan of the First Congregational church, officiating, was witnessed by only a few of the relatives and intimate friends of the contracting parties. The bride was attended by her sister, Miss Mildred Miller, and the groom by Mr. David Hecker, of Minneapolis. The wedding march was played by Miss Bertha Glunt.

The house was tastefully decorated with pink and white carnations and ferns, the color scheme being carried also in the table decorations. The

bride wore a going-away gown of brown velvet.

The bride is one of Brainerd's popular young ladies and the groom is prominently connected with the

Pittsburg Plate Glass Co., of Minneapolis.

Mr. and Mrs. Hyde left on the mid-night train for a short wedding trip and will be at home to their friends

after December 1st, at the Hotel Carleton, Minneapolis.

H. Crosby, the development of the Cuyuna range would have been delayed for years.

To my mind a school building should bear some name associated with the history of the locality in which it is located or with the history of the country, and surely no name could be more appropriate than that of Crosby for the splendid structure in the village bearing that name. As to the school at Ironton, I am advised that it is your purpose to give it the name Ironton. Surely gentlemen, this is a mistake. The word Ironton means nothing. It is not the name of a family honored and esteemed, it is not a part of the history of the country and it is only an invention of a name.

I hope you will pardon me in suggesting a different name for the school building at Ironton. A name associated with the history of school district No. 51 since its very inception. In fact it is the name of the founder of that school district. The name of an honored and esteemed family now engaged in the business of the world, a name of a man who almost penniless, living in a small shanty on section 2 now within the village of Crosby, with a large growing family, who in the dead of winter, not having a horse to ride or drive, tramped through the then wilderness, to visit the few settlers of that region, to ask them to assist him in securing a school, where his children and theirs might receive an education. The name of a man who met with antagonism in his efforts from people who had no families, but who finally succeeded in his efforts in receiving the aid of the county commissioners in establishing in the little log building (still standing) on his homestead, the first school of district No. 51. The name of that man was Chas. J. Oberg.

To my mind this sentiment surely will appeal to you, and that the founder of school district No. 51 will be remembered at your hands by giving to the school building at Ironton his family name.

Yours very truly,

JOHN H. HILL,
Nov. 14th, 1911.

Rounds-Bartlett

An Eau Claire, Wis., paper gives an account of the wedding of Harold Rounds, the son of Mrs. Weltha I. Rounds to Miss Kate E. Bartlett, of Eau Claire, daughter of Mrs. E. M. Bartlett. Mr. Rounds, while in Brainerd, was employed at the M. & I. offices and has since been working in the general offices of a railway running into Chicago. The young man is a nephew of Mrs. J. T. Drawz, of Staples. Their many friends wish them much happiness and prosperity.

WELL KNOWN ENGINEER

Fred D. Stillings, Who Passed Away Wednesday Afternoon, Was 30 Years in Railway Service

Fred D. Stillings, who passed away Wednesday afternoon at a local hospital, was for 30 years a passenger engineer, being first employed by the Northern Pacific railway and then by the Minnesota & International railway.

He and St. Hallett ran the first engines on the M. & I. The deceased was a kind and good hearted man, well liked by his associates and railway officials. He was a good husband and father. Always pleasant with his associates, he will be missed by all of the train men. Many a time the boys on the road have said: "If we want to make time get Fred on the 22", that being the engine which he usually ran.

The deceased was born in 1857 in Gorham, New Hampshire, and came to Brainerd when he was about 19 years old. He was married in Minneapolis to Miss Mary Gates in 1881. To them a daughter was born, Mrs. J. F. Casey, who resides in Brainerd. He was taken sick November 6, suffering with a paralytic stroke and was removed to the Northern Pacific sanatorium where everything possible was done to relieve his suffering. He was gentle and patient and his wife was devoted in her care for him. He firmly believed he would get better and seemed to be gaining in strength until yesterday when he weakened and passed away while in a peaceful slumber.

He was a member of the Bemidji lodge of Elks, the Brotherhood of Locomotive Engineers, Modern Samaritans, United Order of Foresters, Knights of Pythias and the Workmen.

The funeral will be held from the residence, 303 North Fifth street, at two o'clock and from the Methodist church at 2:30 on Saturday afternoon, November 18. The remains will lie in state at the home from Friday afternoon until Saturday the time of the funeral.

Brainerd Musical Club

The concert given last evening in the Elks hall was a most pronounced success and the members of the musical club may feel justly proud of their efforts in securing talent of so high a standard. In this so-called prosaic, mercenary age, music is most imperative and we each and every one agree with the author in his denunciation that "The man that hath no music in himself nor is not moved with concord of sweet sounds, is fit for treasons, stratagems and spoils".

Mesdames John Millen and John A. Stephenson met the expectations of their audience in their duo piano numbers and were frequently recalled to acknowledge applause. In their closing number was afforded the best opportunity of portraying their true artistic temperaments and they responded to the call.

Miss Mary Bradshaw is the possessor of a God-given personality which coupled with a beautiful soprano voice prompted the thought, that the sound—
"Of music that is born of human breath
Comes straighter to the soul than any strain"

The hand above can make."

Miss Bradshaw's descriptive introduction of her numbers added considerably to their reception and it was especially pleasing to learn that American composers were so rapidly forging to the front, that a program recently given in Berlin was made up entirely of the classics of our fellow country men.

Miss Carlotta Simonds proved a most valuable acquisition to this well known group of Duluth artists and in her accompaniments through the entire evening was in perfect sympathy with the soloist. Altogether the evening was a most enjoyable one and it was most gratifying to have the performers comment so favorably on the acoustics of the hall comparing it most favorably with the Elks hall in St. Paul.

Hyde-Miller

Last evening at the home of Mr. and Mrs. Wm. F. Holst, 421 4th St., north, occurred the marriage of Miss Adah M. Miller of this city, and Mr. J. Edwin Hyde, of Minneapolis.

The marriage service with Rev. G. P. Sheridan of the First Congregational church, officiating, was witnessed by only a few of the relatives and intimate friends of the contracting parties. The bride was attended by her sister, Miss Mildred Miller, and the groom by Mr. David Hecker, of Minneapolis. The wedding march was played by Miss Bertha Glunt.

The house was tastefully decorated with pink and white carnations and ferns, the color scheme being carried also in the table decorations. The

bride wore a going-away gown of brown velvet.

The bride is one of Brainerd's popular young ladies and the groom is prominently connected with the Pittsburg Plate Glass Co., of Minneapolis.

Mr. and Mrs. Hyde left on the mid-night train for a short wedding trip and will be at home to their friends

after December 1st, at the Hotel Carleton, Minneapolis.

Notice

The regular meeting of Brainerd lodge, No. 615, B. P. O. E., to be held Thursday, November 16th, is postponed to a later day.

NEW USE FOR AEROPLANES.

Expected to Be Important Factors in
Forest Fire Prevention.

The supervisor of the Selway forest,
consisting of 1,600,000 acres, which was
formerly part of the Nez Perce reserve
in Idaho, predicts that aeroplanes and
wireless telegraphy will be important
factors in forest fire prevention before
a far distant date. He believes that a
man in an aeroplane could do more ac-
curate and extensive survey work in
the forests of the Pacific slope country
in a few hours when forest fires are
raging than is usually accomplished by
twenty rangers in a week.

With wireless stations installed on
peaks in the chief danger zones he be-
lieves it would be a comparatively easy
task to assemble men and apparatus to
check and extinguish the flames and
prevent spreading.

Saved Many From Death

W. L. Mock, of Mock, Ark., be-
lieves he has saved many lives in his
25 years of experience in the drug
business. "What I always like to
do," he writes, "is to recommend
Dr. King's New Discovery for weak,
sore lungs, hard colds, hoarseness,
obstinate coughs, la grippe, croup,
asthma, or other bronchial affection,
for I feel sure that a number of my
neighbors are alive and well today
because they took my advice to use
it. I honestly believe it's the best
throat and lung medicine that's
made." Easy to prove he's right.

NEW USE FOR AEROPLANES.

Expected to Be Important Factors in
Forest Fire Prevention.

The supervisor of the Selway forest,
consisting of 1,600,000 acres, which was
formerly part of the Nez Perce reserve
in Idaho, predicts that aeroplanes and
wireless telegraphy will be important
factors in forest fire prevention before
a far distant date. He believes that a
man in an aeroplane could do more ac-
curate and extensive survey work in
the forests of the Pacific slope country
in a few hours when forest fires are
raging than is usually accomplished by
twenty rangers in a week.

With wireless stations installed on
peaks in the chief danger zones he be-
lieves it would be a comparatively easy
task to assemble men and apparatus to
check and extinguish the flames and
prevent spreading.

The Pretty Milk Maid

Where are you going, my pretty
maid?"

"I'm going milking, sir," she said.
"Why do you milk maid? Don't you
know

That milk's where the bacterias
grow?"

Those germs that make our tummies
ache.

So cut it out, that old milk fake,
And hie to field of barley—do,
Where grows the malt that helps the
brew.

If you'd do good to humankind,
You'd chuck the milk pail far be-
hind,

And leave to calves the germs and
things

That science says the milk pail
brings.

The purest drink for years and years,
You'll learn is golden grain belt
beers.

The Handy Heater PERFECTION SMOKELESS OIL HEATER

You often need some heat
in early Fall, when you have
not yet started the furnace.

In whatever part of the house you want it, you can get it
best and quickest with a Perfection Smokeless Oil Heater.

The Perfection is the most reliable heater on the market, and you
can move it wherever you please.

Start it in bedroom or bathroom, and you dress in comfort on the coldest
morning. Take it to the dining-room, and early breakfast becomes a pleasant,
cosy meal. A touch of a match at dusk, and all is snug for the evening.

The Perfection Smokeless Oil Heater is beautifully finished—an ornament
anywhere. Drums of plain steel or enamelled in blue; nickel trimmings.
A special automatic device makes smoking impossible. Burner body cannot
become wedged. All parts easily cleaned. Dampers top. Cool handle.

Kellogg's

It's the national favorite—never was a food so popular before. Last year the country ate more KELLOGG'S than all the other brands together, and there's hardly a home that doesn't serve KELLOGG'S regularly. The tempting filmy flakes have made a hit with the nation's appetite.

From youngsters up, the enchanting flavor of the tender, meaty, sun-ripened sweethearts of white corn, has made good. And you're missing the treat of your life if you're not serving the most delightful of foods in your home. Try it tomorrow and let the children's vote decide.
